

## ANNEX I

### List of items that cannot be carried by passengers into security restricted areas or aboard the aircraft

The following items may not be carried by passengers to security restricted areas or aboard the aircraft (cabin baggage):

- 1) *Hand guns, firearms and other shooting equipment* - equipment suitable for use or looking to be suitable for use to cause serious injury by firing a projectile, including:
  - Firearms of all kinds, such as guns, revolvers, rifles, shotguns
  - Toy guns, replicas and imitations of firearms that can be mistaken for real weapons
  - Firearm components, except for telescopic sights
  - Pneumatic and CO2 weapons such as guns, shotguns, rifles and ball guns
  - Rocket launchers and starter guns
  - Arches, crossbows and arrows
  - Harpoon and Spear Throwing Devices
  - Slingshots and catapults
- 2) *Stunning devices* - devices specifically designed for stunning or immobilisation, including:
  - Infestation devices, such as stun guns, tassles and paralyzing rods
  - Stunning and slaughtering equipment for animals
  - Neutralizing and disabling chemicals, gases and aerosols, such as tear gases, pepper gases, acid sprays and animal repellent aerosols.
- 3) *Objects with sharp tip or sharp edge* - sharp-pointed or sharp-edged objects that can be used to cause severe injury, including:
  - Hacking items such as hatchets, axes and choppers
  - Ice skeins and ice skewers
  - Shaving blades
  - Box-cutter knives
  - Knives with a blade length of more than 6 cm
  - Scissors with a blade length of more than 6 cm measured from the point of rotation
  - Equipment used for martial arts with sharp tip or sharp edge
  - Swords and sabers
- 4) *Work tools* - tools that can be used to cause serious injury or threat to aircraft safety, including:
  - Steel crowbars
  - Drills and drill bits, including wireless portable electric drills
  - Tools with a blade or shank longer than 6 cm suitable for use as a weapon such as screwdrivers and chisels
  - Saws, including wireless portable electric saws
  - Soldering lamps

- Guns for firing pins and nails
- 5) *Blunt tools* - items that can be used to cause serious injury when used to hit someone, including:
  - Baseball bats and softball sticks
  - Sticks, such as rubber sticks, leather-covered metal clubs and police batons
  - Equipment used for martial arts
- 6) *Explosive materials and devices, flammable substances and ignition devices* – explosive materials and flammable substances and ignition devices that are fit or usable to cause serious injury or endangering the safety of the aircraft, including:
  - Ammunition
  - Primers
  - Detonators and fuses
  - Replicas or imitations of explosive devices
  - Mines, grenades and other military explosives
  - Fireworks and other pyrotechnics
  - Smoke pots and smoke cartridges
  - Dynamite, gunpowder and plastic explosives

as well as the items and materials provided for by separate regulations, and in particular the items listed in the Safety Instructions for the Transportation of Dangerous Goods by Air issued by the International Civil Aviation Organization (ICAO), the Regulations on Dangerous Goods issued by the International Air Transport Association (IATA) and the Commission Regulation (EC) No 68/2004.

General Terms of Air Carriage by ENTER AIR Sp. z o.o.  
Version effective as of April 1, 2017
